After twenty-five years of use with very little deterioration the library building received its first general re-varnishing and painting. The latter item related chiefly to the portico as there is but little other woodwork exposed outside. The interior finish, which has almost the fine quality of cabinet work, showed the need of renovation, especially around the window-casings where exposed to the hot sunshine of summer.

The need for more adequate lighting through the afternoons of late autumn and the winter season, had become so great, that the trustees felt called upon to equip the building permanently with a system of electric lights. A light of sufficient power is set in

each corner, and a central light over the center table and desk. The amount of current used incurs only the minimum charge of one dollar per month. This improvement makes it possible for visitors to linger in the library, even into twilight hours, and become better acquainted with the books.

Again acknowledgment is due to the librarian and assistants of the Howe Library for advice in the selection of books and typing cards for the card catalogue. The clerical work of keeping the card catalogue up to date cannot be done for the town library in the time at command of the librarian. An increase in the appropriation is needed for perfecting the classification and arrangement of the books, so that the card catalogue will aid in quickly locating any book by title or author.

While the amount spent for books is less than that spent in the previous year, the number bought (not far from 100) is hardly less, because many excellent books, written to hold the interest of both young people and their elders, are now available at moderate prices.—And right here must be mentioned the addition of a case of much needed double shelving to hold the increasing number of volumes properly arranged. Before that many had to be spread on window-seats or piled on top of the wall-cases. This occupies almost the last floor space available for book cases.

The proposal to install a small oil-heating equipment similiar to some used in the kitchens of the village, was postponed in order to burn the firewood left over from last year. The advantage of the oil heat is that the building could be kept constantly at a moderate temperature of 50° to 60° during severe winter weather, and so avoid the extremes between penetrating "frost" and the slow process of heating the great room to be safely comfortable for the visitors and librarian during two afternoons in the week.

Respectfully submitted,

Robert Fletcher,
Adna L. Camp,
Etta F. Emerson,
Trustees.

MARY HITCHCOCK MEMORIAL HOSPITAL

January 31, 1932

During the year February 1, 1931, to January 31, 1932, the Hanover Free Beds in the Mary Hitchcock Memorial Hospital, Hanover, New Hampshire, have been occupied four hundred and ninety-one days by thirty residents of the Town of Hanover, New Hampshire.

The normal income from this endowment fund is approximately $458.00, which, supplemented by an appropriation of $1000.00 by the town this year, brought the total income to $1458.00.

The charges at the minimum hospital rates for services rendered to these patients during the period amounted to $1740.70.

James A. Hamilton,

Superintendent.

AUDITORS' REPORT

We have examined the foregoing accounts of the selectmen, town treasurer, collector of taxes, town clerk, judge of the municipal court, and the treasurer of the town library, and find them correct and all disbursements supported by proper vouchers.

The accounts of the trustees of trust funds having been kept by one of the auditors have been examined by Archie M. Peisch and found correct and the assets in the hands of the treasurer of the trustees as stated.

FRED E. COBURN,
Treasurer.

During the past year the Etna Fire Association has been the beneficiary of a donation from one of our kind neighbors, Mrs. Ella D. Merrill, who has been called to the great beyond.

We have also been the recipient of a Ford truck equipped with chemical apparatus, given to us through the Hanover Fire Company for which the proper officials have received our most courteous appreciations.

We have installed an electric siren on our station that can be heard through the neighborhood and equipped the large truck with a small siren.

Our town has been very fortunate in regard to fires as there were but six calls for our apparatus in the past year.

In closing the report of the Etna Fire Association the officers and members think it no more than right to ask the town for a little help for the ensuing year and are therefore having an article inserted in the warrant for same.

FRED E. COBURN,
Secretary.

FIRE WARDEN'S REPORT

February 2, 1932

During the year 1931 moisture was very plenty making conditions quite safe.

One small grass fire in the early Spring. During the dangerous period a fire which by its location would have been a serious conflagration was averted by quick work of volunteers and Deputy Warden Storrs.

Except when the ground is covered with snow permits to burn may be obtained from the Warden provided moisture conditions and location of the Fire warrant safety.

Permits by telephone.

VITAL STATISTICS

To the Selectmen:

In compliance with an act of the legislature passed June session, 1887, requiring clerks of towns and cities to furnish a transcript of the record of births, marriages, and deaths to the municipal officers for publication in the annual town report, I hereby submit the following.

Respectfully

George M. Bridgman,

Town Clerk.

EXPLANATION REGARDING STATISTICS

The following statistics include the births and deaths occurring in the Mary Hitchcock Memorial Hospital during the year 1931 which do not properly belong to the town. One hundred and forty-four children were born there of mothers from other towns, and eighty-seven persons from other towns died there. Taking these from the numbers given in the tables, the record for Hanover would be fifty-two births and twelve deaths.

REPORT OF HEALTH DEPARTMENT

February 1, 1932

To the Commissioners of the Precinct of Hanover, N. H.:

Report of the Health Department for the year ending January 31, 1932.

During the past year milk licenses were granted, after dairy inspection, to thirty-two distributors of milk in the Precinct.

Most of these men buy milk from other producers. In order to safeguard the milk supply inspections were made of these dairies also.

Over one hundred milk samples were taken and tested and other samples were sent to the State Laboratory in Concord.

Two Pasteurizing Plants which furnish milk to the Precinct have been erected during the past year and are under fairly constant supervision.

The few nuisances which were reported were investigated and corrected or at least ameliorated.

From March to the end of the past year one hundred and fifty-two cases of contagious diseases were reported and quarantine enforced in those instances where it is required by law.

To accomplish the above inspections and investigations, the Health Officer covered a distance of more than six hundred and fifty miles.

K. N. Atkins,

Health Officer
Milk Inspector.

In a business district no dwelling shall be built with a side wall within the distance required in a general residence district from a side lot line unless contiguous thereto.

Front Yards

(c) In a single residence district no building shall be built nearer to any street line than the maximum set-back observed by two-thirds of the buildings on the same side of the street to right and to left as far in either direction as an intersecting street, but not exceeding a distance of five hundred feet in any case; provided, however, that if within such limits less than one-third of the lots are built upon, the set-back shall be forty feet unless the Board of Adjustment shall rule that a lesser set-back will safeguard the character of the district. In a general residence or educational district no building shall be built within ten feet of the street line.

Corner Clearance

(d) In a single or general residence or educational district within the area formed by the lines of intersecting streets and a line joining points on such lines fifteen feet distant from their point of intersection, or in case of a rounded corner the point of intersection of their tangents, no structure, fence or vegetation shall be maintained above a height three and one-half feet above the plane through their curb grades.

Accessory Buildings

(e) On a lot occupied by a one or two-family dwelling, a one-story building of accessory use thereto may be located in and occupy not more than thirty per cent of the rear yard of such dwelling. No yards are required for such building by this ordinance.

(f) Nothing herein shall prevent the projection of window sills, belt courses and other ornamental features not more than three inches into any required yard, nor the projection of cornices not more than eighteen inches into any required yard, nor the projection of an uncovered porch not more than five feet into any required rear or front yard.

Appurtenant Open Space

(g) No lot shall be so reduced that the dimensions of any of the open spaces shall be smaller than herein prescribed. No yard or other open space required for a building by this ordinance shall during the life of such building be occupied by or counted as open space for another building.
